

Model 5300 LCD Take-A-Number Display Specifications

Features

The 5300 Series display is a 2-digit LCD Take-A-Number display. At 17" wide, this display is preprogrammed with 5.5-inch tall digital numbers viewable from up to 125 feet. The LCD Take-A-Number display can be utilized on a counter top (similar to a computer monitor) or hung on the wall with a bracket (provided). Microframe designed the LCD Take-A-Number System with the option to utilize a wireless remote control, or push buttons wired to the display.

5320
